

## **Scottish Fisheries Museum Minecraft Model Download and Installation instructions:**

### **First download the files and save them to your PC:**

1. Download the *Scottish\_Fisheries\_Museum.zip* file from the online link
2. Use Winzip, WinRar or 7zip (free) to unzip the files to your desktop (temporary)

### **Now import the files into Minecraft:**

Open Minecraft and choose Play

Click 'Options'

Click 'Resource Packs'

Click 'Open resource Pack Folder' (this will open a folder)

Find the folder path at the top of the screen

Click one step back in the path called '.minecraft'

Double click the 'saves' folder

Drag and drop your unzipped *Scottish Fisheries Museum* folder from the desktop to the 'saves' folder.

Return to the Minecraft main menu.

Click 'Single Player'

Locate and open the Scottish Fisheries Museum map

**Now you are ready to start exploring, building and creating!**
