

# 2018 BUCKLAND LECTURE

## A HISTORY OF SALMON MANAGEMENT IN THE BRITISH ISLES

Dr Ronald Campbell

Buckland Professor Dr Ronald Campbell traces the history of salmon management in the British Isles – and how scientific knowledge of the day has informed (and mis-informed) it.

Dr Campbell has pursued a long career in management of Atlantic Salmon for the River Tweed Foundation and is currently a member of the Hon. Scientific Advisory Panel of the Atlantic Salmon Trust and of the Spey Fisheries Board Scientific Committee.
