Fishing Mortality: general trends

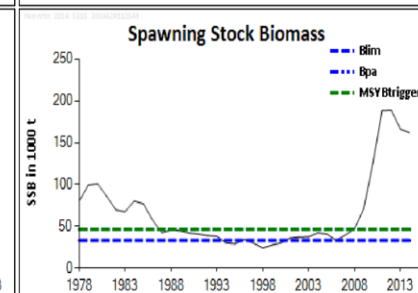

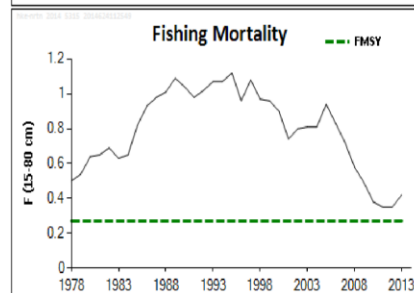

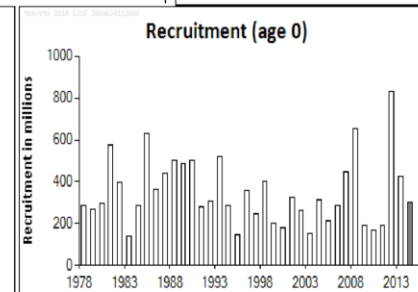

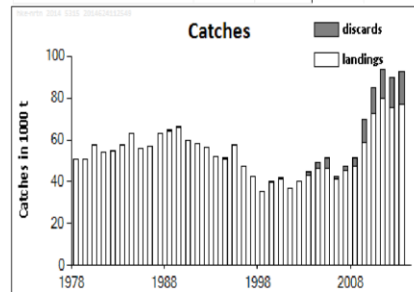

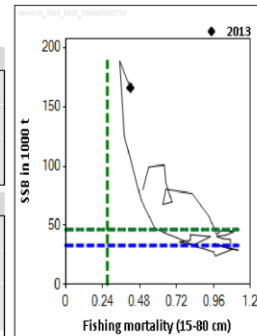

North Sea plaice

Western hake

Stock status

Fishing pressure			
	2011	2012	2013
MSY (F_{MSY})	✗	✗	✗ Above target
Precautionary approach (F_{pa}, F_{lim})	?	?	? Undefined
Stock size			
	2012	2013	2014
MSY ($B_{trigger}$)	✓	✓	✓ Above trigger
Precautionary approach (B_{pa}, B_{lim})	✓	✓	✓ Full reproductive capacity

General lessons of the last 20 years

- ▶ Broad brush measures may be politically and administratively easier to introduce but they will fail and cost more in the long term
- ▶ If you don't get fleet capacity aligned with the resource, nothing will work
- ▶ Bringing the resource holders into the design and implementation of management measures is critical

Landings Obligation

Discards (numbers) in the North Sea roundfish fishery
